

European Cohort Studies on Healthy Ageing at Work Symposium

October 24-25, 2013

TNO, Polarisavenue 151, Hoofddorp, The Netherlands. Close to Amsterdam Schiphol Airport

Aim: Following the lidA symposium in 2012, the symposium aims to connect European cohort studies on healthy ageing at work in order to exchange knowledge, facilitate collaboration, and highlight important research questions in the context of demographic change.

Registration for the symposium and joint dinner (October 24) is open until October 1, please send an email including your name and address to infoSTREAM@tno.nl. Registration fee is 75 euros, dinner 40 euros (payment details will be given in the confirmation email).

Program

Thursday, October 24, 2013

13.00-15.00	Session 1: Methodological challenges and promising designs. <i>Chair: prof P Bongers</i> Prof A Burdorf Prof D Deeg (LASA) M Hyde, PhD (IDEAR)	Methodological challenges to analyze dynamic patterns of determinants and diseases over time in longitudinal studies Aiming at a moving target: research on older workers in times of change. The Longitudinal Aging Study Amsterdam Cross national comparisons of the impact of work environment on ageing well at work in Europe
15.30-16.45	Session 2: Mechanism in early retirement. <i>Chair: prof HM Hasselhorn</i> A de Wind, MSc (STREAM) V Kretschmer, PhD (lidA) H Burr, PhD (DWECS) Comparing findings	Lisrel analysis of STREAM model applied to early retirement Do work ability and work motivation mediate the effect of health on thoughts about early retirement? To what extent do health, workability and motivation mediate the association between working conditions and early labour market exit? Discussion
17.15-18.00	Session 3: Poster and Pitches. K Rijs, MSc (LASA) M Bal, PhD Prof R Peter (lidA) P Brouwer, PhD (STREAM) J Sanders, MSc (STREAM)	Development and validation of a physical and psychosocial job-exposure matrix in older workers The relationship between workload and weekly work engagement: The buffering effect of Age and Job resources The role of work-related stress, social isolation and regional unemployment rate in the association between education and depressiveness – Results from the lidA-study Measuring effects of promotion and demotion to enhance sustainable employability – A panel data approach Sustaining employability of the lower educated older worker: training, mobility or work redesign?

Friday, October 25, 2013

09.00-10.30	Session 4: Focus on (mental) health. <i>Chair: S Brouwer, PhD</i> F Leijten, MSc (STREAM) M Schuring, PhD (ECHP) E Hudson, PhD (TILDA) H Burr, PhD (lidA)	Longitudinal Relations Between Common Health Problems and Work Ability and Productivity in Older Employees. Self-rated health before and after labor force exit and re-employment – evidence in European countries. Peer Groups, Employment Status and Mental Well-being among Older adults in Ireland Employment, psychosocial working conditions and depressive symptoms of an ageing work force – Evidence from Germany
11.00-12.30	Session 5: Beyond retirement. <i>Chair: prof A van der Beek</i> Prof A de Lange (Dutch 60+ cohort) D Hochfellner, MSc (registry data) E Dingemans, MSc (NIDI-panel)	Sustainable work ability of 60 plus workers: the role of HRM and leadership. results of the Dutch 60 plus cohort study Employment Trajectories beyond Retirement in Modern Societies Bridge employment after involuntary retirement: A bridge to better post-retirement well-being of older adults?
12.30-13.00	Closure
